

Data sheet hydrogen power generator

Our SEA-H series power generation systems are available in design variants for mobile or stationary applications. Hydrogen serves as the energy carrier.

Figure 1: Model SEA 36

Applications

- Regular power generation
- Emergency power
- Mobile power supply
- Can also be used on ships and work equipment
- Can be operated as a combined heat and power unit (CHP) through optional extensions

Technical data

Model series	Max. power output [kW]	Technology	Version	Dimensions L x H x W [mm]
SEA-H 5	5	PEM	Compact unit	varying
SEA-H 36	36	PEM	Compact unit	2100 x 1400 x 950
SEA-H 72	72	PEM	Compact unit	2850 x 1400 x 950
SEA-H 144	144	PEM	Compact unit	10 ft ISO Container
SEA-H 180	180	PEM	Compact unit	20 ft ISO Container
Large-scale systems	On request	On request	On request	On request

Your benefits

- **Compact unit with built-in tank**
- **Robust design for industry and disaster relief**
- **No harmful chemicals**
- **For mobile and stationary use**
- **Plug- and-Use systems**
- **No noise und no harmful emissions**
- **Very low maintenance**
